Competitiveness

Operating like a private business, Central Printing bills city customers for services rendered using burdened labor rates. This means all overheads are included in these charges. Listed below are the division's key rates billed to city customers compared to average Fresno market rates derived from a recent survey.

- Central Printing's **GRAPHICS & TYPESETTING RATE** of **\$87.04/HOUR** is on par with the commercial average market rate.
- Central Printing's **PRINTING PRESS RATE** of **\$87.04/HOUR** is on par with the commercial average rate.

The Central Printing Division will also team up with outside vendors to provide the best value for print and copy jobs. Contact us for all printing and coping jobs and let us Be Your First Contact!

Let us save you time and money on long run copy jobs. Long runs on individual department copiers cost you staff time, place unnecessary wear and tear on your copier, and add premium charges for copies over your monthly limit. As with all jobs, we will get you the lowest price possible.
